

ICL RECEIVES GLOBAL RECOGNITION FOR ITS EFFORTS IN DEALING WITH CLIMATE CHANGE

*ICL was rated A- for its 2020 CDP Climate Report
Tied for highest among Israeli companies and tied for highest among fertilizer peers*

Tel Aviv, Israel; December 21, 2020 - ICL (NYSE & TASE: ICL), a leading global specialty minerals and specialty chemicals company, announced today it was rated A- for the second year in a row, based on its 2020 CDP Climate Report. The rating reflects transparency and performance regarding greenhouse gas (GHG) reduction and climate change actions. ICL's 2020 rating is tied for highest among Israeli companies, as well as tied for highest in its global fertilizer peer group.

The Carbon Disclosure Project (CDP) collects and ranks climate change performance data from more than 8,000 companies around the world and serves more than 500 investors holding approximately \$100 trillion in assets. ICL's CDP report is based on 2019 data and includes a comprehensive breakdown of ICL's GHG emissions, reduction targets and initiatives. It also tracks the company's climate change related risks, opportunities and business strategy. Finally, the report reviews ICL's participation in emission trading schemes, its gradual transition to renewable energy, receiving external verification and other related topics.

ICL's leading CDP score is in addition to several other recent achievements in sustainability indices and rankings:

- Bloomberg Environment, Social & Governance (ESG) Disclosure ranking: score of 68, highest among all fertilizer producers and Israeli companies
- FTSE4GOOD: inclusion in index for companies with strong ESG practices
- Maala Corporate Responsibility index: highest score of 'Platinum +'
- Bloomberg Gender Diversity Index (GDI): included for second consecutive year

“We are proud of this achievement, which we attribute to our consistent reduction in ICL's global GHG emissions in recent years,” said Raviv Zoller, president and CEO of ICL. “We have succeeded to implement our energy efficiency programs and leverage use of new innovative technologies to reduce GHG emissions. ICL remains committed to continuous improvement and adaption of best management practices in all components of sustainability”.
