

August 7, 2011

Translation from the Hebrew. The Hebrew version is the binding version

"ICL wishes to announce that on August 5, 2011, ICL Fertilizers entered into a new potash supply agreement with its primary customer in India. Under the terms of the agreement, ICL Fertilizers will supply the customer with one million tons of potash for a period of eight months beginning in August 2011 at an average price of \$490 per ton. ICL Fertilizers also has the option to supply an additional 100,000 tons under the same terms."
